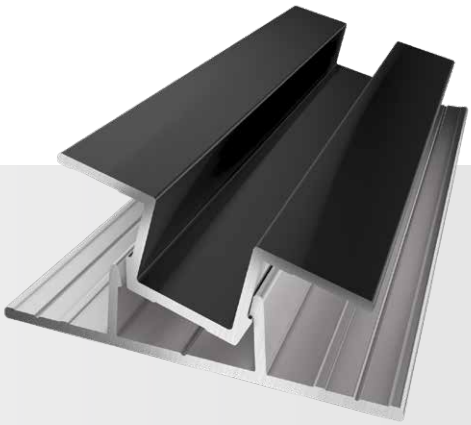
EasyTrim® Reveals



THE EASY CHOICE

Bold Design. Superior Functionality.

EasyTrim Reveals® is a complete two-piece, exterior aluminum trim system compatible with the most popular lap siding and panel options on the market. EasyTrim Reveals® is the go-to for both residential and commercial projects across North America.

- UV / Fade Resistant
- Full-Edge Protection
- Anti-Corrosive
- Maintenance Free
- Moisture Management
- No-Sharp Edges

The Easiest Choice to Make

More than just a trim solution, EasyTrim Reveals® significantly reduces installation time and enhances the building's exterior performance, minimizing the need for ongoing maintenance. Our Fit and Finish™ system features overlapping trims that protect siding from moisture and harsh elements. This design not only preserves the aesthetics but also extends the life of your building exterior, making EasyTrim Reveals® the smart choice for long-lasting quality.

Multiple Colors and Finishes to Choose from

Round Outside Corner

Category	Length	Series
Outside Corner	**10′**	**5/16″**

Description

The Round Outside Corner gives a soft flowing look while providing the protection and durability required for heavy traffic areas where carts and other components will often bang into the corner. It also features our patented EZ.Bump® for full water management, caulk-free installation, and Fit & Finish.

2-Piece Outside Corner Transition

Category
Outside Corner

Length
10′

Series
5/16″ to **3/4″**

Description

The 2-Piece Outside Corner Transition gives the same distinct shadow lines as our other Square Outside Corners while giving the advantage of almost seamlessly transitioning between the two siding depths available in the EasyTrim® system. Reversible, it offers a 1/2″ opening on one side for panel installation and 3/4″ on the other for lapped plank and 3/4″ natural wood products.

Multi-Angle Outside Corner Transition

Category	Length	Series
Outside Corner	**10′**	**5/16″** to **3/4″**

Description

The Multi-Angle Outside Corner Transition is a revolutionary trim profile that allows you to almost seamlessly transition between the two siding depths available in the EasyTrim® fiber cement system. This trim can be installed to trim various desired angles from 105 to 160 degrees, replacing the time-intensive installation of 2 adjusted J trims.

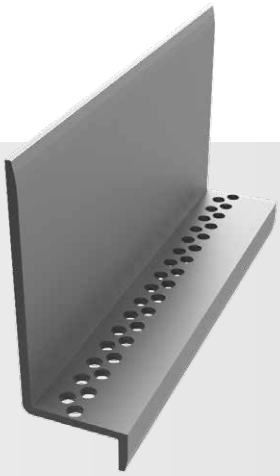
Perforated Vented Starter Strip

Category
Strip

Length
10′

Series
Universal



Description

The Perforated Vented Starter Strip keeps bugs out, allowing ventilation into the rainscreen cavity while saving labor and material costs. Our starter strips are based on a concept developed by siding installers to combine two important siding accessories – a lip edge for the starter course of siding and perforations to create a bug screen for rainscreen cavities.
